Every Thursday (13 June - 26 September 2019)

On the way to the splendid "Hoher Stein" vantage point our female nature guide will tell us interesting details about the history of Ötztal's beginnings. Many huge rockslides as well as natural catastrophes shaped this unique valley. At the very top - the magnificent vista point - scenic Längenfeld = "long field" nestles right at your feet. Get to know all the reathtaking peculiarities about this awe-inspiring place. Did you know that the largest rockslide of the Central Alps can be found close by? Ever heard of "Köfelsit" or even touched it with your hands? Join us on this truly exciting tour!
